

BESPOKE SPACE RING SIZER

HOW TO FIND YOUR RING SIZE

For the best result, please ensure the following:

- Prior to printing this size guide, make sure that page scaling is set to 'None' in your print options.
- This ring size guide should be printed on standard A4-size paper for the most accurate results.
- Once printed, check that the ring sizer measures 89mm long. Please refer to the diagram below for more information.

OPTION 1 Measure Your Finger

1. Print and cut out the marked ring sizer as shown below. Make a cut along the dotted line in the wide part of the sizer.
2. Place the ring sizer around your ring finger with the marked side visible to you. Weave the skinny end through the slit.
3. Mark down the letter that is the closest to the slit on the wide end - this will be your ring size.

OPTION 2 Measure Your Ring

1. Print the ring size guide.
2. Choose a ring that fits your desired finger properly.
3. Place your ring over the circles until the inside of the ring matches one of the circles.
4. If your ring happens to fall between two sizes, it is best to choose the larger one.
